

PLAYING DVDs FROM SASD TEACHER PCs HOOKED TO COMPUTER PROJECTORS

Purpose

To Play Educational DVDs from teacher PCs that are hooked up to computer projectors

Playing a DVD from a **DELL PC** with PowerDVD

Click on Start → SASD Programs → PowerDVD

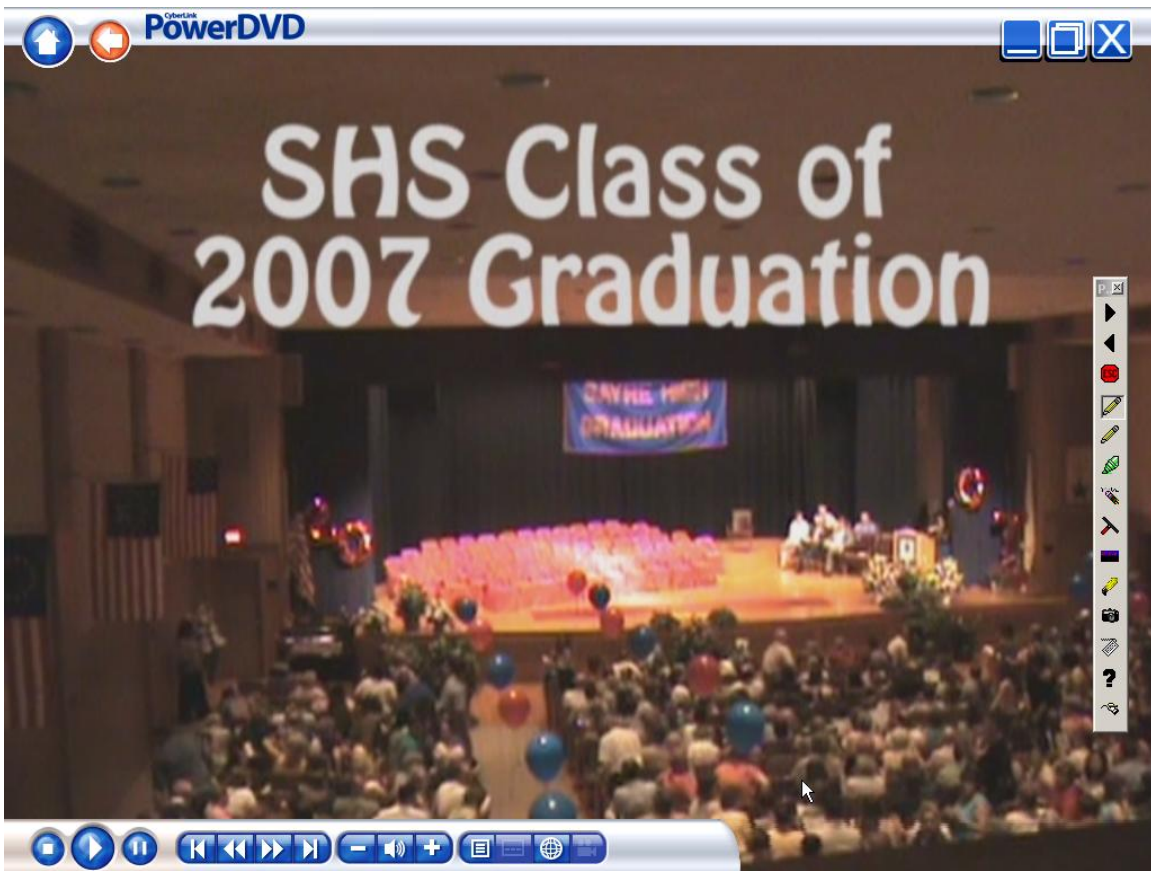

Results in:

Insert DVD into PC (PC must be a DELL teacher PC with a DVD labeled slot)

Depending on DVD – just click on the Play Movie / Scene Selection (for this example we click on the Play Movie)

If you need to go back to the menu of the DVD – just click on the menu button

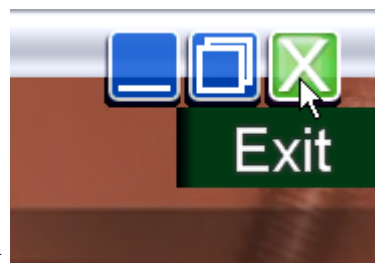

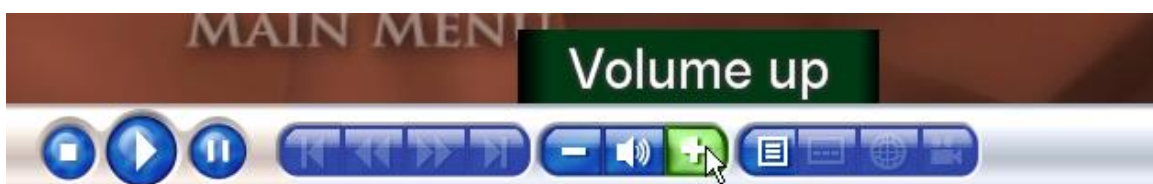

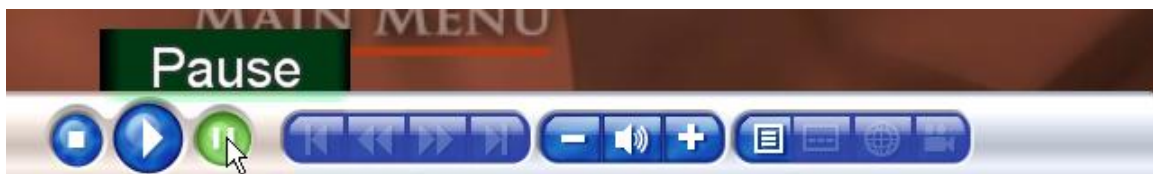

See the following example

If the DVD allows this – you may also select scene selection – see the following example:

The other controls are just like a DVD player

When done with the DVD – just
the DVD from your PC

click on the exit icon and remove
