

## SAYRE AREA SCHOOL DISTRICT TECHNOLOGY TIPS

# TO LOG IN AND CHANGE YOUR STUDENTS IN THE CLASS

### Purpose

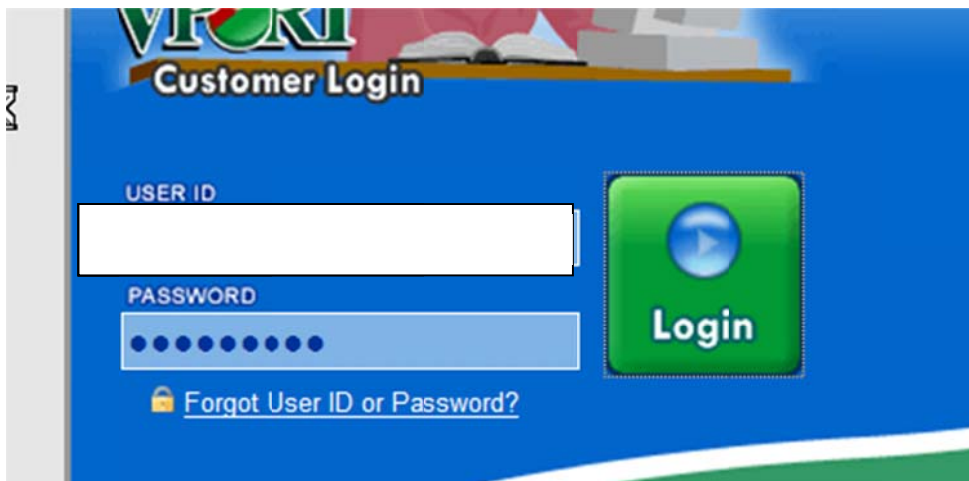

To add students to your Kurzweil class.

### Procedure

To change or update your students in your class follow this link:

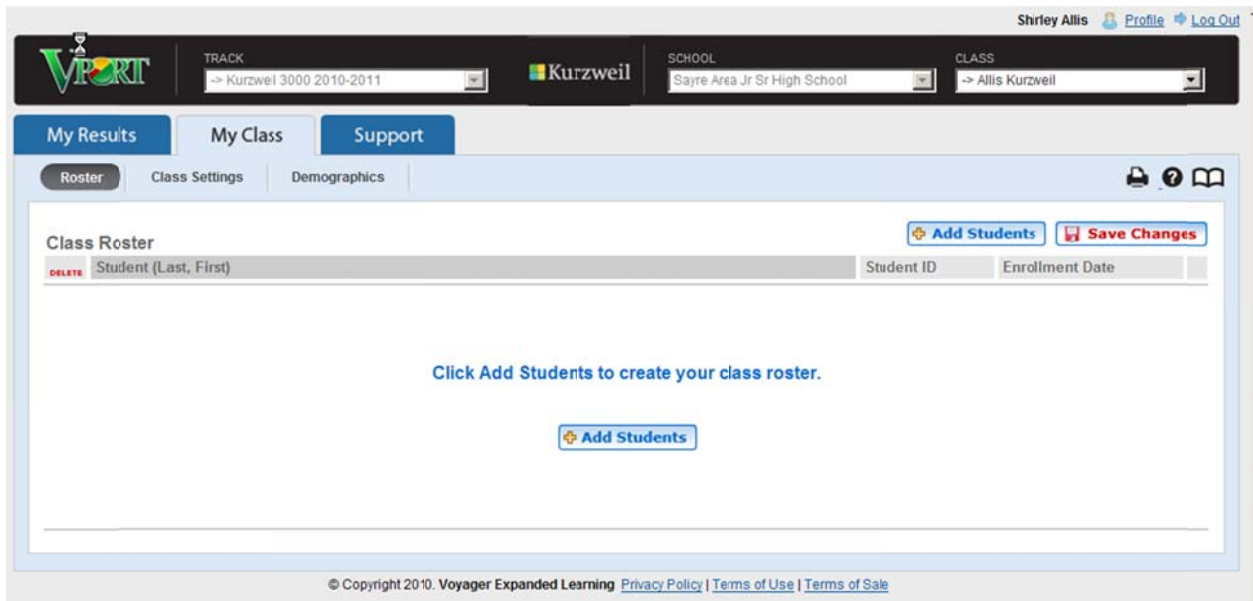

<http://www.voyagerlearning.com/vport>

Log in with your User ID and Password

It will automatically take you to the screen you want:

If you cannot view your class contact tech support by emailing [groupshelpdesk@sayresd.org](mailto:groupshelpdesk@sayresd.org) and ask for your class to be added.

You can click on My Class and add students so you can view them.

To add a student you will need to click the Add Student button and type in the information and they will be added.

After you have created a new student the username and password will be automatically generated.

You then could either email or write down the student(s) username and password and give the student(s) the credentials.
