

# How to Make Main Top Image a Link

## Purpose

To make the Main Top Image a Link on our web site.

So if you click on the main top image, the link will take you to our home page.

Once you click on the top image, it takes you to our home page.

## Procedure

Need to change all web pages to use the following code:

### Original Page

```
22 <td class="Main">
23
24 <!--Top Heading Code-->
25 <table width="100%" cellspacing="0" cellpadding="0">
26 <tr>
27 <td></td>
28 <td colspan="3"></td>
29 <td></td>
30 </tr>
31 <tr>
32 <td></td>
33 <td class="HeadingBorderLeft"></td>
34 <td class="Heading"></td>
35 <td class="HeadingBorderRight"></td>
36 <td></td>
37 </tr>
38 </table>
39 <!--Top Heading Code-->
40
41 <!--Navigation Code-->
42
43 <table width="100%" cellspacing="0" cellpadding="0">
44 <tr>
45 <td></td>
46 <td class="NavigationBorderLeft"></td>
47 <td>
48
```

Rayvan Masoumi: 01-26-12 08:47:21

**Change the code to be the following for every page**

```
<td class="Main">

<!--Top Heading Code-->
<table width="100%" cellspacing="0" cellpadding="0">
<tr>
<td></td>
<td colspan="3"></td>
<td></td>
</tr>
<tr>
<td></td>
<td class="HeadingBorderLeft"></td>
<a href="../default.asp"><td class="Heading"></td></a>
<td class="HeadingBorderRight"></td>
<td></td>
</tr>
</table>
<!--Top Heading Code-->

<!--Navigation Code-->

<table width="100%" cellspacing="0" cellpadding="0">
<tr>
<td></td>
<td class="NavigationBorderLeft"></td>
<td>
Kayvan Masouri: 01-26-12 08:49:39

```

And then you'll have the header work as a link

The line of code will be:

```
<a href="../default.asp"><td class="Heading"></td></a>
```

For every page on Line 34
