

SAYRE AREA SCHOOL DISTRICT TECHNOLOGY TIPS

SAVING VIRTUAL WHITEBOARD SESSIONS

Purpose

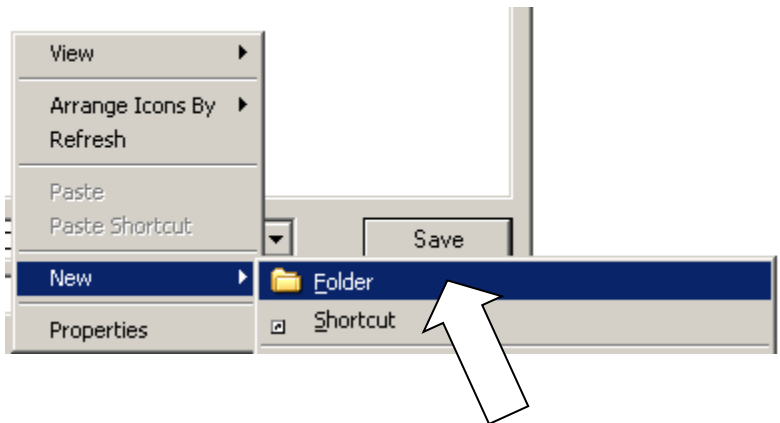

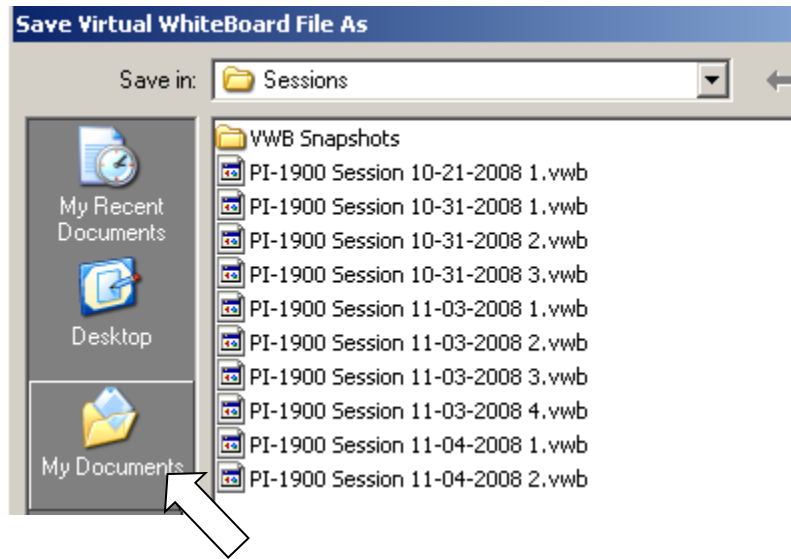

Saving a Virtual Whiteboard Session for later use

Saving

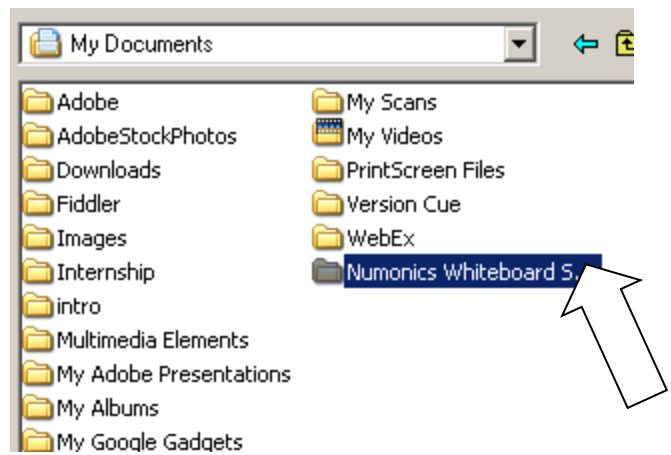

Go to File → Save As

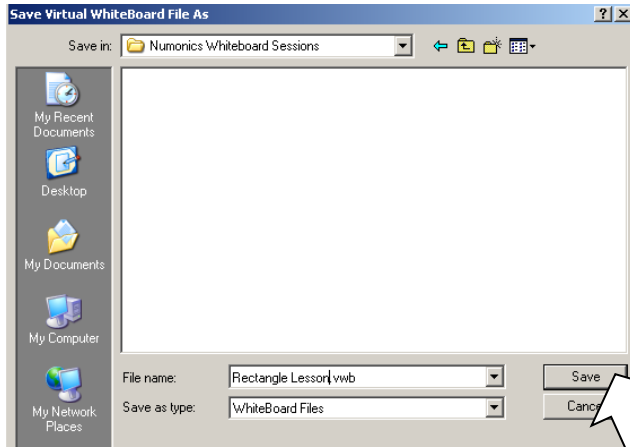

Click on **My Documents** to change save location to the network
(Ensures the work can be accessed from any district computer)

If necessary, **create** a new folder to store your Virtual Whiteboard Sessions

The new folder will now be displayed.
(In the example, I've created a folder called Numonics Whiteboard Sessions)

Click on the folder and change the file name to something you will be able to remember. Click Save.
