

SAYRE AREA SCHOOL DISTRICT TECHNOLOGY TIPS

NUMONICS

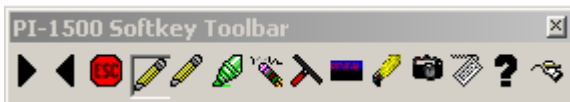

Introduction

- *Numonics PI-1500 is a smart tablet used to deliver instruction to students using technology*
- *This handout will go over the basics with the PI-1500 including how to ensure that you are saving to your network drive*

Starting PI-1500 Softkey Toolbar

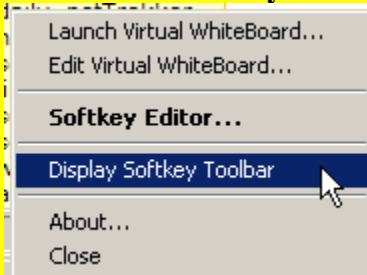

Once you start up your PC – you will see the following toolbar on your screen

This will automatically start up when you turn your PC on

Please Note – if you do not see the Softkey Toolbar – just click on the Softkey icon and

choose show Softkey

Using the Softkey Toolbar

You may use the Softkey Toolbar with any of your programs

Let's say you started up Internet Explorer

netTrekker - Windows Internet Explorer

Bembo's Zoo Dictionary >

http://www.bemboszoo.com/Bembo.swf

A fascinating alphabet (abecedary) created by artist de Vicq de Cumplich. Each letter of the alphabet is represented by an animal, and each animal is created by the letters in the animal's name. An interesting way to learn the alphabet for younger students, and of interest as artwork for older students.
